

# Organic straw pellets

Janis ECO

Our products  
are 100% natural

# Organic straw pellets advantages compared to straw bedding

Compact, takes up less storage space

Pellets are aromatizing

Ideal bedding with no straw dust

Perfectly suitable bedding for horses

Easy separation  
of feed (hay, grass)  
residue.

High absorption capacity  
and easy manure  
and urine removal.

# Production

Organic straw pellets for horse bedding.

We produce straw pellets for bedding from organically grown cereal straw. Straw pellets contain 5-10% weeds. Our modern straw pellet production facility allows us to easily control the quality of straw pellets.

User-friendly packaging and direct and precise deliveries ensure easy and reliable cooperation with customers.
